

REMARKS/ARGUMENTS

In response to the Examiner's Office Action of April 5, 2007 the Applicant respectfully submits the accompanying Amendment of the claims and the below Remarks.

Regarding Amendment

In the Amendment:

independent claim 1 is amended to specify that the claimed method includes determining operation parameters of the printer and producing the wallpaper with the printer in accordance with the determined operation parameters;

dependent claims 4-10, 16, 18, 19, 30, 36-41 and 48 are unchanged; and

new dependent claim 49 is added specifying the operation parameters of the printer which are determined.

Support for these amendments can be found, for example, at page 42, line 27-page 43, line 21 of the present specification. It is respectfully submitted that the Amendment does not add any new matter to the present application.

Regarding Non-Statutory Double Patenting Rejections

It is respectfully submitted that above-described amended independent claim 1 is patentably distinct from the claims of each of US Patent Nos. 6,944,970, 6,920,704 and 7,108,434 and copending Application Nos. 10/760,257, 10/760,228, 10/760,225, 10/760,251, 10/760,240, 10/760,226, 10/760,224, 10/760,199, 10/760,193, 10/760,269, 10/760,260, 10/760,266, 10/760,230, 10/760,215 and 10/760,214, because none of the claims of these patents and applications recite a method which includes determining operation parameters of the printer and producing the wallpaper with the printer in accordance with the determined operation parameters.

Regarding 35 USC 102(b) and 103(a) Rejections

It is respectfully submitted that the subject matter of above-described amended independent claim 1, and claims 4-10, 16, 18, 19, 30, 36-41, 48 and 49 dependent therefrom, is not disclosed or suggested by Martin (US 2002/0171692) either alone or in view of one or more of Nozawa (US 5,701,147), Stoffel (US 6,412,990), Goldstein (US 2002/069078) and Rottman (US 5,526,028), because none of these cited references teach or suggest printing wallpaper in accordance with monitored operation parameters of the printer.

It is respectfully submitted that the Examiner's rejections have been traversed. Accordingly, it is submitted that the present application is in condition for allowance and reconsideration of the present application is respectfully requested.

Very respectfully,
